ABOUT TRADING & CRYPTOCURRENCY

A cryptocurrency, crypto, coin or token is a digital currency designed to work as a medium of exchange through a computer network, that is not reliant on any central authority, such as a government or bank, to uphold or maintain it.

A cryptocurrency is a digital or virtual currency that is secured by cryptography, which makes it nearly impossible to counterfeit or double - spend.

The first cryptocurrency was bitcoin, which was founded in 2009 and remains the best known today. Much of the interest in cryptocurrencies is to trade for profit, with speculators at times driving prices skyward
